

It's all about the celebrations!

Since our last update we have found ourselves with much to celebrate here at Holistic HQ. We are very lucky to have been awarded accreditations and partner status with HPE (Hewlett Packard Enterprise) and VMware, our recent blog on security has been featured in the local business news and last but by no means least our Managing Director and leader Luke Shepherd turned 40!! Obviously this was the biggest celebration of them all! We had a fantastic team day at the Doncaster Races to mark the occasion. Unfortunately we won't be shutting up shop due to the large amount of money we made at the races but we certainly had a great time celebrating.....

DONCASTER RACES

Are your staff putting you at risk?

Our recent blog post was featured last month by the We Are Doncaster news section. It seems security is still a hot topic for businesses when it comes to day to day operations. A year on from GDPR our blog posts looks at why staff can pose the biggest risk to organisations when it comes to breaches of security that sadly land companies with hefty fines. We work regularly with businesses who are concerned about security breaches within their organisations. We can advise you on the best way to keep your data secure and check for any vulnerabilities in your systems with a free, no obligation IT Audit. You might be surprised what we find!

A FAMILIAR FACE IN OUR SALES TEAM

Our Business Development Manager Paul Simpson has been with us since the start of the year making him a relatively new member of our team. However, Paul has been in the industry for over 20 years and has worked with most of the team before! Paul is heading up our Business Development team here at Holistic working with customers old and new to provide effective solutions. Paul has a wealth of experience in working with companies of all sizes and industry verticals so get in touch with him if you need information and advice on any area of technology or project in your business by dropping him a line to paul.simpson@holistic.it

FOR QUESTIONS ABOUT ANY OF OUR SERVICES PLEASE CONTACT US:

If you have any queries, problems or want to discuss your I.T. requirements with a member of our team, get in touch today:
